Important Questions	Answers	Why This Matters:
What is the overall deductible?	$ 2,000 Individual / $ 4,000 Family **Benefit Period: Calendar Year**	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible (Embedded).
Are there services covered before you meet your deductible?	Yes. Prescription drugs, Preventive care and primary care services are covered before you meet your deductible.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/.
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan?	$6,450 Individual / $12,900 Family	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met (Embedded).
What is not included in the out-of-pocket limit?	Premiums, balance-billing charges, penalties for failure to obtain Preauthorization for services, and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out–of–pocket limit.
Will you pay less if you use a network provider?	No. **This plan does not utilize a network for any services.** All services will be subject to Reference Based Pricing (RBP) based on 150% of the Medicare Reimbursement Rate.	This plan does not use a provider network. You may receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing).
Do you need a referral to see a specialist?	No	You can see a specialist you choose without a referral
